Contents

1	Process	3
---	---------------	---

1 Process

When creating your IPAFFS declaration for wild caught fishery products which require catch certification you will need to add **ALL of the IUU information** (including the documents) to the **CHED-P** declaration.

This is done under the '**Documents**' section of the CHED-P declaration.

Documents

Catch certificates	TO DO
Accompanying documents	TO DO

- Click on '**Catch certificates**' and tick the appropriate declaration:

Documents

Catch certificates

You must add catch certificates for all fish species unless they are exempt from illegal, unreported and unregulated (IUU) fishing controls.

For help with catch certificates, check the guidance on [importing or moving fish into the UK](#) (opens in new tab).

- ▶ [If you do not have catch certificates now](#)

Do you need to add catch certificates?

- Yes
- No – all the wild fish in this consignment are exempt from IUU fishing controls

Save and return to hub

Save and continue

- If you tick 'Yes', you will be asked to upload the catch certificate(s):

Documents

Upload catch certificates

You can select up to 10 documents at a time, and up to 100 documents in total. You can include multiple catch certificates in one document.

Each document must be:

- smaller than 10MB
- a DOC, PDF, XLS, JPEG, PNG or GIF file

▶ [If you do not have catch certificates now](#)

Select documents to upload

Drag and drop files here or

Choose files

Continue

Please note that you can do either of the following:

- Upload each catch certificate as a separate attachment, or
- Upload up to 10 catch certificates in one attachment (if there are more than 10 catch certificates you will need to upload more attachments)

You will then need to state the number of catch certificates in each attachment.

The example below states that there are 3 catch certificates in the attachment:

Success
1 document uploaded

1 attachment is missing details
• Attachment 1 of 1
